

No more guess work or arguments...

Introducing the 'No Arguments' Australian Standards 2589 kit for plasterers.

The **new "no arguments" gauge kit** for plasterers and builders, is designed and produced in Australia by the Association of Wall & Ceiling Industries Vic. Inc., specifically for AWCIV members and the Plastering Trade.

This kit comprising a pair of heavy-duty stainless steel gauges can save you time, money and disagreements. Providing an easy means of showing that the job complies with Australian Standard 2589 on plasterboard joint and angle tolerances.
